acaruana@smithandlong.com

The Tunnelling Association of Canada, Ontario Chapter, is proud to present an interesting case history of tunneling with TBM and C&C in a densely urbanized Indian mega-city.

Geodata is a geoen지니어ing company engaged since 1984 in the design of underground works. Today, it is active in over 25 countries with companies and subsidiaries. It recently opened a branch in Canada, based in Woodbridge, ON. The Delcan-Geodata JV has been appointed for Detailed Design, Contract Administration and Site Inspection Services for the West Vaughan Sewage System Project.
