1996 14th Canadian Tunnelling Conference

Boro Lukajic  
President's address

Keynote Address - 14th Canadian Tunnelling Conference  
C.F. Lee  
Rock Tunnelling in China - Challenges and Opportunities

S.J. Boone, B. Pennington, A. King, D. Heenan  
Compensation Grouting and Tunnelling Beneath Toronto's Spadina Subway Line

C.C. Chang, S.K. Jain, R.J. Angarola, Jr.  
Oakwood Beach Interceptor Sewer: A Compressed Air Tunnel Case History

Patrick J. Doig  
Mining in Rock with a Soft-ground TBM, Birmingham, Alabama

Brian Garrod, Jan Feberwee, Charles Wheeler  
Sheppard Subway - Design of Twin Tunnels

Alfred Haack  
Leakage, Maintenance and Rehabilitation of Transport Tunnels

John Hart  
State-of-the-Art Manufacturing of Precast Concrete Tunnel Liners for the Toronto Subway

V.J. Hebert, Juan Lelito, A. Naudts  
Rehabilitation, Maintenance and Decommissioning Category:  
Detroit-Windsor Tunnel Rehabilitation - Practical and Innovative Aspects

A. Hefny, K.Y. Lo  
Modelling of Long-Term Time-Dependent Deformation and Stress-Dependency of Queenston Shale

Brian Isherwood, Nadir Ansari, Peter McDonald  
St. Clair River Tunnel, Sarnia: Design and Construction of a Shaft for the TBM Cutterhead Retrieval

K.Y. Lo, Al Hefny  
Design of Tunnels in Rock with Long-Term Time-dependent and Nonlinearly Stress-Dependent Deformation

Stephen Navin, Jon Kaneshiro, Gregg Korbin, Lok Home, George Williamson  
Unique Tunnel Boring Machine for the South Bay Ocean Outfall Project

J.N. Shirlaw, S.J. Boone, J.G. Ball, R. Ng  
Geotechnical Investigations for Toronto’s Eglinton West Subway Project
J. Westland, J.N. Shirlaw, J.R. Busbridge
Geotechnical Investigations and Assessment of Boulder Frequency for
Toronto's Sheppard Subway Project

Paper Submitted to the Journal

Marwan M. Mohammed, Hani S. Mitri
Access Shaft Sinking in the Greater Cairo Wastewater Project

Communications

Bernie Martin, Duncan G. MacLennan
The Negotiated Compressed Process Before & After

Discussion

Gary S. Brierley
Discussion on "Jet Grouting for Solving Tunneling Problems in Soft Clays"
by D.A. Bruce and G. Pellegrino
